Akash Gawali

Data Scientist & AI Engineer · Pune, Maharashtra, India
akashgawali736@gmail.com · linkedin.com/in/akash-gawali1301 · github.com/Akash-gawali-13

SUMMARY

Data scientist who turns messy data into systems people actually use. Builds AI and data products full-time at Globe Creater, trains students in Python, SQL, Power BI and ML, and takes a small number of freelance projects: AI tools, dashboards and business websites.

EXPERIENCE

Data Scientist & Technical Project Lead — Globe Creater Services LLP, Pune — Jun 2026 – Present

- Building a digital archive and document management system: ingestion workflows, metadata pipelines, audit trails and traceability.
- Running pre-deployment security and quality testing (OWASP checks, VAPT, server hardening) before release.
- Training student batches in SQL, Excel, Power BI and machine learning, including mock technical interviews.

Data Analyst — Novarties Tech System, Pune — Aug 2025 – Jun 2026

- Worked on an AI-integrated analytics dashboard covering multiple districts across Maharashtra.
- Owned data collection, cleaning, validation and transformation for large administrative datasets.
- Designed dashboards for district-wise KPI tracking, comparison and reporting.

AI/ML Engineer Intern — Labtech Innovations, Pune — Jun 2025 – Aug 2025

- Built end-to-end ML pipelines on real datasets: cleaning, feature selection, training and evaluation.
- Compared algorithms on accuracy and trade-offs, and presented findings to the team.

PROJECTS

District Intelligence Dashboard — Unified village, tehsil and district data with KPI dashboards and an AI chatbot for plain-language queries. — Python, SQL, Power BI, LLM

Digital Archive & DMS — Large-scale document ingestion with metadata, audit logging and traceability; OWASP and VAPT tested. — Django, PostgreSQL

Real-time Sign Language Recognition — Reads hand gestures from a webcam and translates them in real time. — Python, OpenCV, Deep learning

Iris Verification Engine — Compares iris patterns to verify identity, served through a Streamlit app. — TensorFlow, Siamese networks, Streamlit

Resume Screening & Ranking — Ranks candidates by matching resumes to a job description on skills and experience. — spaCy, Transformers

Job Application Automation — Collects and filters listings and automates repetitive application steps. — Python, Selenium

SKILLS

Languages: Python, SQL, JavaScript, HTML/CSS
ML & AI: scikit-learn, TensorFlow, OpenCV, spaCy, Transformers, Generative AI / LLMs
Analytics & BI: Pandas, Power BI, Excel, Streamlit
Backend & Data: Django, PostgreSQL, MySQL, REST APIs
Testing & Security: OWASP checks, VAPT, server hardening, Selenium

EDUCATION

B.Sc. Data Science — Savitribai Phule Pune University — 2022 – 2025

HIGHLIGHTS

- Trained 100+ learners in Python, SQL, Power BI and ML.
- Delivered 5+ AI/ML solutions across industry and personal projects.
- Co-ran an AI in Design workshop for art and design students (Oct 2026).
- Open to freelance: AI tools, dashboards, business websites, training.
